As an accomplished Java and Spring Boot Developer with a focus on Postman, Swagger, AWS, and Kafka, I bring over three years of practical expertise in developing resilient and scalable solutions. My proficiency in Java and Spring Boot extends to crafting enterprise-level applications, and I excel in API testing using Postman and Swagger.

EXPERIENCE

- **Trainee Programmer (Ionixx technologies Pvt Ltd)** *OCT 2022 - Present*
 - **Project 1 : ENUM | 5 months | Java | SpringBoot**
 - Experienced in building and maintaining RESTful APIs, ensuring smooth communication and conducting thorough testing with tools like Postman.
 - Deep understanding of financial concepts like pre-trade, post-trade, margin, settlement, and pricing enhances platform functionality. Proficient in AWS for deploying, managing, and scaling cloud applications.
 - Worked individually to conceptualize the website design for new changes on the company's website and successfully chosen
 - **Project 2 : EPL | 7 months | Java | SpringBoot**
 - Created EPL financial app with Java 1.8, Spring Boot, PostgreSQL, and AWS S3. Conducted thorough API testing for smooth operations, implemented CRUD functions for data handling, and secured PostgreSQL connections.
 - Emphasized detail-oriented development and testing, with meticulous Swagger documentation.
 - **Project 3 : A2C - Ribbon Communications | 5 months | PHP | SOAP**
 - Key contributor to the A2Converter project, leading backend development in PHP and integrating SOAP APIs for seamless data migration from legacy Genband to modern Ribbon systems.
 - Conducted thorough functional testing and collaborated cross-functionally to solve challenges. Maintained detailed documentation, showcasing proficiency in PHP, SOAP APIs, problem-solving, teamwork, and documentation practices.
 - Enhanced technical skills and gained insights into complex data migration in telecommunications infrastructure.
- **Project Trainee (Ionixx technologies Pvt Ltd)** *NOV 2021 - OCT 2022 (internship)*
 - **Project 1 : COREDERA | Java | SpringBoot**
 - Led the development and architecture setup of an advanced Share Market Trading Platform utilizing Java 16, Spring Boot, MySQL, Kafka, and AWS.
 - Implemented real-time event streaming with Kafka for prompt updates, integrated AWS services for security and scalability, and developed RESTful APIs for seamless communication.

EDUCATION

Muthayammal Engineering College, Namakkal
BE in Computer Science & Engineering

2022
CGPA: 81%
